Who Should Attend

Surgeons Of Different Specialties

(Plastic, ENT, Maxillofacial) who wish to enhance their skills in Rhinoplasty surgery at any level of experience. Both beginners and proficient rhinoplasty surgeons will draw benefit from the customizable fellowship programme.

Course Mentor

Dr Santdeep Paun, FRCS
Consultant Facial Plastic Surgeon,
Chairman European Board of Examination for Facial Plastic Surgery, London, UK

Patron

Dr Satish Jain
M.S. (ENT), FRHS,
MRSH London (UK)
Director,
Jain ENT Hospital,
Jaipur

“Rhinoplasty requires dedication and has a long learning curve. Recent, major changes in techniques have made this operation more complex and lengthy, but undoubtedly with significantly improved results. This 6 days fully hands-on fellowship programme has been designed to enable participants to learn the basics first and update themselves about the latest techniques of rhinoplasty. The aim of the course is teaching how to avoid pitfalls that will require a revision to your primary rhinoplasty.”

LEARNING OBJECTIVES OF COURSE

A Step by Step Approach

- Clinically oriented nasal anatomy via cadaver dissection demonstration
- The concept of nasal aesthetics & photography
- Pre-op analysis and evaluation of rhinoplasty patient
- Tips & tricks: different type of graft harvesting techniques
- Material and instruments for rhinoplasty
- Open rhinoplasty step-by-step: technical pearls
- Different type of osteotomies: principles, techniques & avoiding complications
- Suturing techniques for tip modification
- Study material : Rhinoplasty literature & videos
